

April 2024

Look out for friendly Fab 5 team members, Best Care Co-ordinators and other staff who will visit clinical areas/departments to discuss Blood Management with you. During the month, we will also have a specific focus (with prizes) on all things blood.

To get up-to-date with accreditation readiness and Blood Management, read the NSQHS Std 7: Blood Management Bulletin. An 'at a glance' one pager on the Standard is also available and will be distributed on walkarounds.

Sunday	Monday	Tuesday	Wednesday	Thursday	Friday	Saturday
	1	2	3	4	5	6
